possibilité de choisir entre des centaines
de combinaisons possibles

eumenes permette di esprimere il proprio
gusto per il design e creare arredi unici
che riflettono lo stile personale, offrendo
la possibilità di scegliere liberamente
tra centinaia di possibili combinazioni

EU/PHORIA
Paola Navone

"The Eu/phoria chairs have an industrial spirit and feminine grace, and they are eco-friendly as leftovers from woodwork are used in the manufacturing of the shell. They are like chameleons that can adapt to any surroundings."

"Les chaises Eu/phoria ont une âme industrielle, une grâce féminine et adhèrent au concept de durabilité puisque la coque est réalisée avec des chutes de bois. Ces sortes de caméléons sont à même de s'adapter partout où elles se trouvent."

"Le seggioline Eu/phoria hanno l'anima industriale, la grazia femminile, l'adesione alla sostenibilità perché nella realizzazione della scocca si usano scarti della lavorazione del legno. Sono camaleonti capaci di adattarsi ovunque."

Paola Navone

"The contemporary solid metal frame introduces a flash of bold colour whilst the generous cushions provide the perfect resting place."

"La struttura metallica resistente e dalla linee moderne aggiunge un tocco vivace di colore mentre i grandi e soffici cuscini offrono un perfetto luogo per il relax."

"La structure en acier à l'allure contemporaine donne un accent de couleur aux ambiances et les larges coussins moelleux en font un coin détente idéal."

The Conran Shop

KOROS
Elin Hedberg

"Koros is a sculpture created to give our daily objects that proper space in which to be seen. The purpose is to investigate on how the objects, placed separately in the structure, related to each other, the viewer and the surroundings."

"Koros est une sculpture créée pour donner à tout objet de notre quotidien son propre espace où pouvoir être regardé. Le but est celui d'étudier de quelle manière les objets, une fois positionnés chacun séparément, se relient les uns avec les autres, avec l'observateur et avec l'environnement."

"Koros è una scultura creata per dare agli oggetti del nostro quotidiano il proprio spazio in cui essere guardati. L'obiettivo è quello di studiare le modalità con cui gli oggetti, posizionati nella struttura individualmente, si relazionano gli uni con gli altri, con l'osservatore e con l'ambiente circostante."

XENÍA

Ludovica + Roberto Palomba

"Xenia is the perfect companion of the contemporary citizen in the universe of his everyday life. Its welcoming seat and fine textiles speak of home and interior furnishing. At the same time, its outdoor materials and practical folding structure allow to enjoy it in outside settings."

Xenia peut accompagner le citoyen contemporain en tous ses voyages dans l'univers de sa vie quotidienne. Pour les dimensions généreuses, la forme confortable et les combinaisons textiles, la collection est pensée pour l'utilisation en intérieur, alors que les matériaux utilisés en légitiment l'emploi en extérieur.

"Xenia è il compagno di viaggio ideale nell'universo del vivere quotidiano. Per le dimensioni generose, la comodità e le cromie raffinate è una collezione pensata per l'interno della casa; i materiali scelti e la praticità della struttura pieghevole consentono di goderne pienamente anche negli ambienti esterni."

Ludovica Palomba

ARKYS

Jean - Marie Massaud

A comfortable seat with a wraparound shape, Arkys is made with a metal grid which provides her with a strong personality; while the light and essential structure makes her delicate and versatile."

"Confortable et enveloppante, arkys se distingue pour la forte personnalité de la coque en grillage métallique, alors qu'une structure légère et essentielle la rend élégante et éclectique."

"Comoda e avvolgente, Arkys è realizzata con una scocca in rete d'acciaio che le conferisce una forte personalità, mentre la struttura esile e la forma essenziale la rendono raffinata e versatile."

Elle Decor

ARACNE

Jean - Marie Massaud

"The balance of a flawless, graceful structure, the simplicity of a well dimensioned tabletop surface, materials adapted from diverse usages... A capable, unique and... accessible table."

" L'équilibre d'une structure juste et raffinée, la simplicité d'un plateau bien dimensionné, des matières aux usages adaptés...Une table compétente, singulière, et... accessible".

"L'equilibrio di una struttura impeccabile e raffinata, la semplicità di un piano ben proporzionato e di materiali provenienti da altri contesti.. Un tavolo capace, singolare e... accessibile"

Jean - Marie Massaud

EUS
Paola Navone

"The Eus table defies gravity. Its supporting frame poetically recounts engineering tales of beams, shelves and trestles."

"La table Eus défie la gravité. Son châssis raconte de façon poétique des histoires techniques de poutrelles, de plateaux et de tréteaux."

"Il tavolo Eus sfida la gravità. Il telaio che lo sorregge racconta in modo poetico storie industriali di travi, mensole e cavalletti."
