

A witty table, available in two rectangular versions (205 x 105 or 250 x 105 cm), a square version (115 x 115 cm) and in two different heights: 72 cm and 35 cm. The powder-coated metal structure, available in four colours, ends with supporting feet with a distinctive design. But the novelty of the eus table also lies in the choice of tabletop materials, through which different styles can be created. The tabletop is available in four different versions: acid-etched glass; hard-wearing layered, with a rust colour exalted by a rough finish; Valchromat®, an innovative material made from wood fibre and dyed by using natural colouring (which can result in some darker areas and colouring unevenness on the surface); and white painted MDF.
